HISTORICAL REVIEW

CLARK UNIVERSITY was founded in 1869 by the Freedmen's Aid Society of the Methodist Episcopal Church, now known as the Board of Education for Negroes. The first location was in the city at Whitehall and McDaniel Streets. During the first few years, Bishop Gilbert Haven secured a tract of land of between 400 and 500 acres on the south side of the city to which the University was moved in 1872. A large portion of the funds for the founding of the University was contributed by Mrs. Augusta Clark Cole, the daughter of Bishop D. W. Clark, who died in 1872. It was, therefore, decided to name the new institution Clark University.

There were erected at this time Chrisman Hall and five cottages. Chrisman Hall served as dormitory for both sexes and housed the recitation rooms.

Meanwhile adjoining land was purchased for the erection of a theological seminary in order that an educated ministry might be provided for the Negro people. Many people contributed toward this, but Dr. Elijah H. Gammon contributed most liberally and finally left a large endowment for its maintenance. It was natural, therefore, that this institution be named, in his honor, Gammon Theological Seminary. The first building was erected in 1883, and the male students moved from Chrisman Hall to this building.

Some of the buildings to be erected later were Ballard Hall, Warren Hall, and Leete Hall. The last building was constructed at a cost of over \$200,000. Thayer Home, the oldest under the management of the Woman's Home Missionary Society of the Methodist Episcopal Church, rendered many years of helpful service as a boarding department for young women.

This home was established for the training of young women in the essentials of housekeeping and home-making, and for the teaching of Home Economics.

Clark University was changed to Clark College in 1940. The removal of the College in 1941 from its old site in the southeast section of the city to Chestnut Street, just opposite the Administration Building and the Library of Atlanta University was possible in the main because of several gifts and donations. For this cause the General Education Board gave the sum of \$750,000, the Rosenwald Foundation \$100,000, and Mrs. Henry Pfeiffer of New York City \$400,000.

The present unit of buildings is composed of dormitories for men and women, each housing over one hundred students, a student union and social building with a cafeteria-dining room and general social rooms, and a large administration and classroom building. The main dormitory for men has been named Pfeiffer Hall, after the late Mr. Henry Pfeiffer. The women's dormitory for the lower division is the Annie Merner Hall named after the wife of Mr. Henry Pfeiffer. Women of the upper division are housed in the recently constructed Merrill J. Holmes dormitory.

Later another unit is to be constructed, composed of a physical education and health building.

The new site of the College makes possible in addition to the large reading room of Clark College the use of the new Atlanta University Library and the central heating plant.

GENERAL AIM OF CLARK COLLEGE

The general aim of Clark College is to provide a learning situation which will offer to its students through many types of activities, both general and specific, an opportunity to develop well-balanced integrated personalities. The purpose is to develop men and women who will be polished and refined in manners, keen and critical in intellect, sensitive and appreciative in nature, Christian in character, broad in interests, efficient in work, and useful to society.

To secure this end, the College endeavors to correct deficiencies, to encourage natural gifts, and to guide the students toward an increasing maturity of outlook and emotional control, and a commitment of life to high purposes. This should involve a growing ethical sensitiveness, both to the values conserved through the social process, and the undeveloped potentialities yet to be achieved for the race and human welfare in its broadest relationships.

GENERAL INFORMATION

RECOGNITION

Clark College holds membership in the Association of American Colleges, the Association of Colleges for Negro Youth, the National Association of Collegiate Deans and Registrars in Negro Schools, the Association of Colleges and Secondary Schools of the State of Georgia, and the American Association of Collegiate Registrars.

Clark is rated by the Association of Colleges and Secondary Schools of the Southern States as a standard four year College, Class A. This institution is recognized as a Class A College by the State Departments of Education of Georgia, Texas, North Carolina, Florida, and other southern states, and the American Medical Association. The recognition given Clark College by the southern states entitles its graduates to Professional Teachers certificates, and the right to teach in the public schools of those states without examination.

PURPOSE

The purpose of Clark College is to promote broad and accurate scholarship and a high type of character. The Institution invites and welcomes students with good ability, high ideals, and sincerity of purpose. This Institution reserves the right, however, to deny admission to, and to ask the withdrawal at any time, of any prospective student or registered student, respectively, who in the judgment of the Administration or Faculty does not measure up to the ideals, moral purposes, and academic standards of Clark College.

LOCATION

The New Clark College is located on the West side of the city, on Chestnut Street. The college is centrally located in terms of the other colleges and the university of the city. The campus is spacious for a college located in a large city, and the buildings are the latest in school Architecture.

ACCESSIBILITY

Atlanta is the greatest railroad center of the South, and is readily accessible from all points. The city contains approximately three hundred thousand inhabitants and affords all the conveniences of modern city life, making it an admirable location for a large school.

On arriving in Atlanta at the Terminal Station take West Fair Street Bus (13) at Mitchell Street and get off car at West Fair and Chestnut Streets, in full view of the College buildings. Arriving at the Union Station, take West Fair Street Bus (13) at Forsyth Street and get off Bus (13) at West Fair and Chestnut Streets. Bring your baggage check with you and present it at the office. By so doing you will save money.

When parents send daughters without an escort, if they will notify the Dean of Women of the time of their arrival, someone will be waiting at the station to receive and conduct them to the College.

Personal checks, unless certified by cashier of the bank, will not be accepted. Make all money orders and certified checks payable to Clark College.

MINISTERIAL DISCOUNT

A 25% discount on tuition will be given to ministers, ministers' wives, and ministers' children in the Atlanta, Savannah, and Central Alabama Conferences of The Methodist Church.

A 12½% discount on tuition will be given to ministers, ministers' wives, and ministers' children in The Methodist Church outside of the three supporting conferences—Atlanta, Savannah, and Central Alabama.

ASSIGNMENTS

No student will be assigned to a room or admitted to a class until he or she presents a ticket showing that he has settled with the bursar. The act of registration pledges all pupils to obey the regulations of the school until formally released therefrom.

On completion of registration in the case of female boarders the room will be assigned by the superintendent of the ladies' dormitory, in the case of male students by the proctor.

SELF HELP

The college is able to furnish a few students with work on the campus. It is possible for a few deserving students in the advanced classes to secure loans, through the recommendation of the College, from the Board of Education of the Methodist Church. Many students secure work in the city evenings, mornings and Saturdays, and thus find it possible to reduce expenses. Efforts are being made to secure more opportunities for work.

STUDENT ACTIVITIES

Athletics

Athletics are considered as a part of the health and physical education department of the college. Football, basketball, track, volley ball and other physical attractions are provided.

Classes and games are carried on by competent physical education teachers.

Young Men's Christian Association

The Young Men's Christian Association of Clark College is a student organization with membership open to all men. The aim is to emphasize true and noble manhood in the threefold development of Spirit, Mind, and Body; and to guide the life of the student so as to give him a broader outlook on life and a closer relationship with Jesus Christ.

Young Women's Christian Association

The Young Women's Christian Association is a student organization on the campus to which all women students are eligible. The Association aims to develop the young women in Christian leadership and in all around Christian womanhood. Because of the many sided activities of the "Y," no girl can afford to leave it out of her consideration in making plans for school life. Membership dues are \$1.00 per year.

The Woman's Division of Christian Service

The Constitution of the Board of Missions and Church Extension provides for girls' and young women's missionary societies. The purpose of this work is to enlist young women and girls in the world missionary enterprise, to acquaint them with the work of the Woman's Division of Christian Service and to provide a channel for their growing to the work of the Woman's Division of Christian Service.

IOTA BETA CHEMICAL SOCIETY

The Iota Beta Chemical Society was organized in 1944 and is opened to all chemistry majors and minors. The purpose of this society is to unite students interested in this field into a single unit for the purpose of research, seminars and vocational guidance.

Members maintaining high scholastic ratings in this field of science over a period of $3\frac{1}{2}$ years may become candidates for the gold key award. Such candidates must submit an essay in the field of science to the committee on research. If approved the gold key is then formally awarded during the week of commencement exercises.

FRATERNITIES AND SORORITIES

The following fraternities and sororities at the College having complied with the conditions for recognition by the College as to scholarship, membership of local chapters, and rules for their relationship to the school, have been granted official recognition by the College: The Alpha Phi Alpha Fraternity, the Omega Psi Phi Fraternity, the Phi Beta Sigma Fraternity, Kappa Alpha Psi Fraternity, the Alpha Kappa Alpha Sorority, the Delta Sigma Theta Sorority, the Sigma Gamma Rho Sorority, and the Zeta Phi Beta Sorority.

AWARDS

James P. Brawley Awards:

Room Award—An award of \$5.00 is made available annually to the young man in Pfeiffer Hall who keeps the best room during the year.

Work Award—An award of \$5.00 is made available annually to the student who is most diligent in work during the year.

Scholarship Award—An award of \$15.00 is made available annually to the member of the Senior Class who has maintained the highest average above 2.5 over the four-year period at Clark College. If the award is not claimed in any year, this amount goes into a loan fund for seniors.

The E. Luther Brookes Achievement Award—An annual award presented by the Alpha Phi Chapter, Alpha Phi Alpha Fraternity, to the most outstanding student organization on the campus.

The N. A. Bridges Memorial Scholarship Award—An award of \$10.00 by the family in memory of the Rev. N. L. Bridges to the most deserving student majoring in religious education with the highest academic record.

The Chicago Clark College Club Scholarship Award—An annual award of \$200.00 to a worthy student chosen by the Club.

The Ida H. Goode Home Economics Award—An annual award of \$25.00 to the most deserving student in home economics on the upper level.

The Chattanooga Clark College Club Tuition Award—An award to a worthy student chosen by the Club.

Professor Samuel F. Harris Award—An annual award of \$5.00 by Mrs. Sara Harris Cureton in memory of her father, Professor Samuel Harris, to the young man in the Freshman Class for scholarship, general attitude and outstanding achievements in school activities for the first semester.

The Ella Thomas Landrum Memorial Scholarship Award—This award of \$50.00 is made available annually by Mrs. Bessie Hall in memory of her mother. This award is made to the student in the Modern Language department who has maintained the highest average in French at the end of the year.

The Reverend George W. Lewis Award—This award of \$10.00 is made available by Dr. and Mrs. D. H. Stanton in memory of Mrs. Stanton's father. It is awarded for personality improvement, scholarship, and general attitude.

The Edgar F. Lennon, Jr., Memorial Scholarship Award—This award of \$100.00 is made available by Mrs. E. F. Lennon, Sr., of Knoxville, Tennessee, in memory of her son, Edgar F. Lennon, Jr., who died while in the service of his country. The award is made to the student of junior classification who made the highest average during the sophomore year. In case any situation should arise prohibiting that student's return to school, he loses claim to the scholarship and the award shall automatically go to the student of the next highest standing.

The New York Clark College Club Scholarship Award—An annual award of \$200 to a student of junior classification in terms of needs and scholastic achievement.

The Ohio Club Award—An award of \$10.00 is made available annually to the most deserving student in the Freshman Class for scholarship, general attitude, and outstanding achievements for the first semester.

The Reverend J. W. Queen and Family Award—An annual award of \$5.00 made in memory of John Queen, to the young man in Clark College selected as having made the greatest improvement during the year in general personality, attitude, and scholarship.

Professor Lawyer Taylor Award—An annual award of \$5.00 by the Taylor Family in memory of Professor Lawyer Taylor, to the student majoring in mathematics and maintaining the highest average in this field over a period of four years.

The Women's Administrative Council Award—An annual award to the group of women maintaining the best kept room in the dormitory.

LOAN FUNDS

The following loan funds have been established from which students of Junior and Senior classification may borrow under conditions stipulated by the donors. The funds are:

(1) **The Lula L. Hill Loan Foundation**, \$200.00, established by Mrs. Lula L. Hill.

(2) **The John N. Smith Loan Fund**, \$50.00, established by Dr. Roy L. Smith, son.

(3) **The Edward Greene Loan Foundation**, \$1,000.00, provided and bequeathed through the will of the late Mr. Edward Greene of Atlanta.

(4) **The Emma Storey Duncan Loan Fund**—Established by Mrs. Alena B. Dent and Dr. James P. Brawley in memory of their Mother.

(5) **The George Washington Carver Student Loan Fund**, \$200.00, established by Mr. C. E. Bassett for students holding membership in The Methodist Church.

(6) **The Washington, D. C., Clark College Club Senior Loan Fund**, \$400.00, established in 1946 by the Club.

THE ALUMNI

Clark has a splendid body of alumni scattered over the United States, and in some foreign lands. We hear excellent reports of these former students, many of whom are occupying important positions in life as doctors, lawyers, clergymen, school teachers, and business men and women. Continuous efforts are being made to keep in touch with this larger Clark College family. A line to the President or Dean giving the location and work of any alumnus will be appreciated.

GOVERNMENT

Morals

In addition to the observance of specified regulations, all students are expected to work. Immorality, and the use of alcohol will not be tolerated. The discipline of this school is designed to encourage self-government. Every influence is thrown around the students to develop culture and character.

Religious Services

The life of the College from its beginning has been directed by men and women of unswerving faith in Christianity. No denominational tests are imposed on any students. Complete religious freedom is guaranteed to every one. At the same time, it is true that the authorities of the College believe that religious development is a matter of primary importance, and that no intellectual culture can compensate for the dwarfing of the religious nature. It stands for broad and strong scholarship and the highest moral and religious life.

Chapel exercises are held every school day. All students are required to be present at these exercises.

All boarding students are required to attend Vesper service each Sunday during the school year.

Vaccination

Every prospective boarding student, when enrolling, must present to the registrar a certificate, signed by a reputable physician, certifying that the student was successfully vaccinated within the last five years.

Without such certificate the prospective boarding student must be vaccinated by an Atlanta physician.

Failing to comply with the above requirements, the student forfeits his rooming and boarding privileges in Clark College.

Atlanta Residents

In view of the limited capacity of dormitories and boarding hall, students living in Atlanta will not be accepted as boarding students until non-resident students are cared for.

FRESHMAN WEEK

Freshman Week will be observed during the week of September 16, 1952. All students who expect Freshman standing are requested to register by October 1. The program for Freshman Week will consist of entrance examinations, classification, psychological tests, conferences and special lectures.

ADMISSION

All persons desiring to enter the College of Liberal Arts of Clark College should make written application for admission not later than the first day of September of the year in which entrance is desired. Regular forms for making application will be sent immediately to any person writing to the registrar expressing a desire to enter the College. After having been sent an application blank the person desiring to enter Clark should fill out the blank and return it immediately to Clark College.

For admission to the College of Liberal Arts a student must have graduated from a four year High School and must present fifteen (15) units of credits from the groups of courses listed below as required for college entrance.

Before a student will be admitted to Clark College he must first present proper credentials. By proper credentials it is meant that the student must have a transcript of his High School work sent direct from the office of the principal of the High School from which he is a graduate to Clark College, which transcript must show, (1) the required number of units in the required subjects, (2) the length of the class periods in minutes, (3) the length of the school year in weeks, (4) the number of weeks each subject was pursued, (5) the grade made in each subject, and (6) the passing mark of the school.

Students failing to furnish proper credentials will be admitted only by examination.

Students may be admitted to advanced standing in the College of Liberal Arts by having sent direct from the office of the college previously attended a transcript of the academic work pursued there. In all cases, good moral character and honorable dismissal from the school previously attended are essential requisites for entrance to Clark College.

ADMISSION OF VETERANS

Clark College is listed among the approved colleges and universities for the training of veterans. The administration has ascribed to the policy of providing for veterans within the general framework of sound educational practices and the flexible program of the college, in keeping with its facilities and personnel.

In its planning the college has been concerned about two groups. Namely, a group composed of former students returning to complete the college course, and a second group of students who are interested in beginning their college experiences.

Veterans entering the college for the first time should be concerned about gaining admission to the college and securing the certificate of eligibility through the Veterans Administration Bureau. This certificate must be presented at the time of registration. In some cases these two processes can be carried forward simultaneously.

The committee on Admissions has seen fit to evaluate and give credit for work conducted for the Armed Forces and courses completed under the auspices of the United States Armed Forces Institute. The amount of credit allowed is in keeping with the recommendations of the American Council on Education and course offerings at Clark College.

A Veteran upon request is assisted in working out a special program in light of vocational interest. The college, however, does not offer short term courses.

REGISTRATION

All students should register in the Business Office promptly upon arrival on the campus. The regular dates for registration for the First Semester will be September 16 for Freshmen, and September 22, 23 for Advanced students. The date for registration for the Second Semester will be February 2. Absences from Classes for all students will begin the day class work begins, and no student will be allowed to register for credit in a course after October 1 for the First Semester, and February 10 for the Second Semester.

A Fee Will Be Charged for Late Registration (See Other Fees, page 15).

CLASSIFICATION

1. **On Entrance:** Upon entrance into the College, students will be classified (a) on the basis of official records from the school previously attended; (b) on the basis of examinations providing the student wishes admission into the Freshman class.

2. **Temporary Classification or Unclassified Student:** Students entering the College presenting certificates or diplomas from accredited schools may be given temporary classification pending the securing of official records from the school previously attended.

3. (a) **Freshman:** A regular student in the College of Liberal Arts having completed less than 28 semester hours of work will be classified as a Freshman.

(b) **Sophomore:** A Freshman must have 28 semester hours and at least 28 grade points before he may become a Sophomore.

(c) **Junior:** A Sophomore must have 60 semester hours and at least 60 grade points before he may become a Junior.

(d) **Senior:** A Junior must have 92 semester hours and at least 92 grade points before he may become a Senior.

4. (a) No student will be classified as a Junior who has not completed all required courses of the Freshman year though he may have sufficient hours and points.

(b) No student will be classified as a Senior who has not completed all required courses of the Sophomore year though he may have sufficient hours and points.

5. Students must be formally admitted to the Senior College Level before being classified as Juniors or Seniors.

EXAMINATIONS

1. **Entrance:** (a) All high school graduates coming from non-accredited high schools will be required to pass an entrance examination for admission to the Freshman College class.

(b) All high school graduates who do not have proper credentials for admission will have to pass an entrance examination before they will be admitted to the Freshman College class.

2. Classification Examination: Upon admission to the Freshman College class of Clark College, each student will be given a written examination in English and Mathematics for the purpose of assigning members of the Freshman class to the section in which they should go. This examination has no bearing whatsoever upon the student's admission into the College class; it is in a measure indicative of the quality of work the student is capable of doing.

3. Tests and Regular Examinations: (a) **Tests:** At irregular intervals the various instructors give tests in the classes to determine the effectiveness of their instruction and the comprehensiveness of the grasp which the student has made of the subject-matter taught. All students are required to take these tests in their respective classes.

(b) **Mid-term Examinations:** At the end of the first nine weeks of each semester a mid-term examination is given in all classes and an average for this period of time is made out which average gives the student definite information as to the quality of work he is doing. This average is also sent to the parents or guardians of the student.

(c) **Semester Examinations:** At the end of each semester written examinations are given in all classes. These examinations contribute in a very large measure to the general average of the work in various courses and therefore, no student is excused from the examinations. A student unavoidably absenting himself from a test or regular examination may take a special test or examination at a fixed time by paying the special examination fee in the Business Office and presenting the receipt at the Dean's office for a permit.

5. Comprehensive Examinations:

(a) **In Major Field.**

In the second semester of the senior year, seniors are required to take comprehensive examinations covering their major and minor fields. Graduation is contingent upon the quality of the performance of the student in these examinations.

A second comprehensive examination will be given only in cases where the students make a percentage score of fifty or above, but fail to make a passing grade.

(b) **General Comprehensive Examinations.**

General Comprehensive Examinations are given on the Junior College Level to students who are in their Sophomore year. Students must pass these examinations to qualify for admission to the Senior College Level. These examinations cover three divisions of the curriculum, and also the field of general information.

STUDENT LOAD

1. Minimum: The minimum number of hours which a regular college student is permitted to carry per semester is 12. Because of outside duties making demands upon the time of some students, it is sometimes necessary for them to carry only the minimum number of hours in order that they may maintain the qualitative standards required for graduation. Students carrying a program of studies of only 12 hours per semester will not be able to graduate at the end of four years and must therefore plan to take a longer time to complete the requirements for graduation.

2. **Average:** The average number of hours for a regular college student to carry per semester is 15 or 16. This is a normal amount of work and all regular college students under normal conditions will be enrolled for this number of hours.

3. **Maximum.** Ordinarily the maximum number of hours for which any college student may enroll is 18. In order to be permitted to carry eighteen hours the student must have carried, during the semester immediately preceding, the average number of hours for a regular college student, and must have maintained an average of B during that semester with no grade below C. No Freshman student will be permitted to carry 18 hours of work during the first semester of his Freshman year.

Any student carrying 18 hours of work per semester and maintaining an average of A in all subjects for that semester may be allowed to carry 19 or 20 hours if he so desires. Under no conditions will a student be allowed to carry more than 20 hours of work per semester.

SPECIAL STUDENTS

Students wishing to do special work at the College but not to carry full work or to work for a degree may register as special students. Special students may select such courses as, in the judgment of the faculty, they are capable of pursuing profitably; but no change will be made in the schedule of recitations to accommodate them. Special students carrying a smaller number than 12 hours of work per week will not be permitted to room and board in the dormitories except in very rare and special cases.

The tuition for a special student up to twelve hours is eleven dollars per semester hour (e.g. the tuition for one three-hour course would be thirty-three dollars (\$33.00)— $3 \times \$11.00 = \33.00 —for the semester).

CLASS ATTENDANCE AND ABSENCES

Students are expected to attend regularly all the courses in which they have been duly registered. No instructor has the authority to excuse a student from his class attendance, and it is his duty to report all absences to the Dean's office at the end of each week.

1. **Class Absences:** The number of absences granted shall not exceed in any one course the number of hours of credit which that course bears; e. g.: in each three-hour course three absences for the semester shall be granted. However, in the case of protracted illness and other specified contingencies a larger number of absences might be granted at the discretion of the Dean, and the instructors under whom the student has classes. In all cases the absences should be made up by special requirements on the part of the instructors concerned.

No student will be allowed to be absent from a class more than one-fifth of the recitations of that course of that semester if he is to receive credit for the course.

(This rule is to be interpreted as meaning that excused absences for any cause must not be in excess of one-fifth of the recitations of the course.)

Students who find it necessary to drop out of school for any reason whatsoever during a semester must make written application to the dean of the college for readmission to classes before returning to the school. In cases where students have to remain

out of class more than two weeks it will be quite difficult for those students to catch up with the work of the classes. In such cases the student might not be permitted to re-enter his classes.

TARDINESS

Five minutes are given students to pass from one class to another. Each student is expected to be within the classroom at the ringing of the five minute bell. Tardiness in class attendance shall be regarded as an absence unless the matter is adjusted by request of the student at the close of the hour. For every three marks of tardiness in each course a mark of absence shall be given.

ABSENCE BEFORE AND AFTER HOLIDAYS

An absence from class recitations on the day immediately preceding or following the Christmas holidays or any other holiday recognized as such by the College shall be counted a double absence.

NOTE: ABSENCE FROM CLASS INSTRUCTION IS REGARDED AS A SERIOUS LOSS TO THE STUDENT AND IN NO CASE WILL CREDIT BE GIVEN UNTIL THE STUDENT HAS SATISFIED HIS INSTRUCTOR THAT THE WORK MISSED HAS BEEN SATISFACTORILY MADE UP.

Except by special permission of the faculty, all students must be present at the closing recitations and examinations of each semester, or no credit will be given for the work pursued.

WEEK-DAY CHAPEL

The week-day chapel is a significant part of the planned program of the college. Daily attendance is compulsory. However, it is intended that the chapel programs shall be so well planned and of such interest and importance that students will have an urgent desire to attend. Moreover, the chapel programs are very largely student programs. Thus, the student has in this activity an extraordinary channel through which he may have expression and self-development.

COLLEGE VESPER

The Sunday vesper hour is compulsory for all dormitory students. This worship hour is under the supervision of the religious committee which is composed of faculty members and students.

BACK WORK

After the final draft of the schedule, irregular students whose back work conflicts with regular work will be required to discontinue the regular work and devote their time to the back work.

STANDARDS

In order to maintain high standards of scholarship and efficiency in various departments of the college, all regulations must be strictly adhered to. The general rules of the College with regard to class attendance and punctuality will govern in all departments of the College. All students pursuing courses in any department of the College are expected to begin attendance upon the first lecture and recitation. Any student who is absent from the first three or more class sessions at the beginning of either semester must make up for these absences by doing such assignments as the in-

structor of the class or classes from which he has been absent may deem wise.

No student will be allowed to change registration or drop a course without permission from the Dean and instructor concerned. Where permission is given a student to drop a course after the first month of the semester in which the course is begun, a provisional grade for the student dropping the course must be given by the instructor which grade will count in the student's scholarship record. Courses dropped without proper permission will be marked failure and will be so recorded on the academic record of the student dropping the course.

A student must maintain a general average of "C" each semester.

An average of "C" must be maintained in the student's major and minor work.

Clark College finds it necessary to eliminate those students who fail to meet standards. A student may be asked to withdraw for no other reason at all except the fact he is not meeting standards.

Students who fail in the first semester of a continuous course, in which the second semester work depends upon the first, will be asked to withdraw from that course at the end of the first semester.

All freshmen who fail in three or more subjects in the first semester will be asked to withdraw at the end of that semester.

All freshmen who fail in two subjects the first semester will be put on probation for the following semester. At the end of the second semester freshmen who are on probation must have passed in at least three-fifths of the year's work. Any student above freshman classification carrying the average load or less and doing inferior work or failing work or both in one-half of the load carried will be put on probation for the following semester and if he does not pass in three-fourths of his work in the semester in which he is on probation he shall be asked to withdraw. No student may be on probation more than twice.

GENERAL HONORS

In recognition of superior attainment in scholarship and character three grades of honors are awarded at graduation: Cum Laude, Magna Cum Laude, and Summa Cum Laude, under the following conditions:

First.—A candidate for any of these honors must have made a passing grade in all courses pursued and a general average of at least 2.0 (B).

Second.—The candidate must have made the following averages in order to qualify for the respective general honors: Cum Laude (2.0-2.4); Magna Cum Laude (2.5-2.7); and Summa Cum Laude (2.8-3.0).

Third.—If the department in which the candidate for either of the above mentioned honors does his major work sees fit, the following also may be required of the student in qualifying for these general honors:

Fourth.—In order for a candidate for graduation to graduate with any of the general honors mentioned above the same high rank of scholarship must be achieved in the comprehensive examinations in

the major and minor fields as required for the respective honors in course—B for Cum Laude, B+ for Magna Cum Laude, and A for Summa Cum Laude.

Fifth.—In no case will the above described honors be conferred upon a candidate for graduation who has not proved to the faculty to be an unquestionable and worthy representative of the ideals of the college in good moral character.

GRADING SYSTEM

The grading system in use is based on the letters A, B, C, D, E, and F. The significance of these letters is as follows:

A, Excellent	93-100
B, Good	85- 92
C, Fair	77- 84
D, Poor	70- 76
F, Complete failure	
Inc., Incomplete	
WF, Withdrew failing; WP, Withdrew passing.	

For each of these grades, values in points are assigned as follows:

- For each hour of A, three points.
- For each hour of B, two points.
- For each hour of C, one point.
- For each hour of D, no point.
- For each grade of F, no points.

The grade "D" signifies poor scholarship. It bears credit in hours but not in points.

The grade "F" means complete failure, and it can be removed only by repeating the course.

The point average of a student is determined at the end of a semester by dividing the total number of points earned that semester by the number of hours for which he was registered.

All Incomplete grades must be removed by the end of the period set for delinquent examinations in the semester following the occurrence of these deficient grades. If these deficiencies are not removed within the time limit, they will be marked "F" and will have to be repeated for credit.

REPORTS

1. Reports to Parents: Clark College has adopted the policy of sending quarterly reports to the patrons of the college in order that they may be kept informed as to progress which their sons and daughters are making in their school work. These reports are sent out just after the mid-examinations of each semester and at the end of each semester. Special reports are made to the patrons whose sons or daughters are doing exceptionally poor work. In these cases the aid of the parents or guardians is solicited

in helping to stimulate the student to do a better grade of work. Likewise, special reports are sent to parents or guardians of students who do exceptionally good work, and the aid of the parents or guardians is solicited in encouraging those students to continue to do good work.

2. **Reports to Students:** Students receive reports on the quality of their work just after the mid-term examination and at the end of each semester just as the patrons do. Students who do inferior work are called into the Dean's office for conference.

MAJORS

Students working for the degree of Bachelor of Arts or Bachelor of Science must at the beginning of their Junior year select some specific department in which to complete a major. Each student should seek the counsel of his advisor or the dean of the college before choosing a major. Major work should be chosen with the student's probable vocation in mind or the field of study which the student expects to enter upon after graduation for graduate work or professional training. The requirements for the completion of a major are stated along with the outline of courses of the various departments.

Majors, and Minors may be pursued in the following departments:

- Department of Biology
- Department of Business Administration
- Department of Chemistry
- Department of Education and Psychology (special permission)
- Department of English
- Department of French
- Department of Home Economics
- Department of Mathematics
- Department of Music
- Department of Philosophy and Psychology
- Department of Physics
- Department of Religious Education
- Department of Social Science
 - Economics
 - History
 - Political Science
 - Sociology

MINORS

Students working for a degree may choose one or two departments in which to complete minors. Minor work should sustain a close relation to major work. The counsel of the student's advisor should be sought in choosing a minor.

Departments offering only a minor:

Art	Psychology
Dramatics	Physical Education
Library Science	

GRADUATION

Degrees

(1) A student must have spent at least one year, thirty semester hours, of residence at Clark College before he will be permitted to

graduate. This work must have been completed since 1939, unless special permission is granted by the Council. Nine of the required thirty hours may be completed at Gammon Theological Seminary or the Atlanta University co-operative summer school.

(2) The requirement for graduation with a degree is the completion of 126 semester hours of work as herein prescribed for the Bachelor of Arts and Bachelor of Science degrees respectively. The student must also have an average of C and a minimum of 126 grade points for graduation.

(3) All fees must be paid in full by each candidate for graduation before a certificate or diploma will be granted him or a degree conferred upon him.

All candidates for graduation are required to be present at the services at which the Baccalaureate Sermon is preached, also to participate in the Commencement exercises as the faculty may determine. On both of the occasions the academic costume (cap and gown) must be worn by candidates for degrees.

RELATION TO ATLANTA UNIVERSITY

Atlanta is recognized as an important center in the field of higher education and is destined to become increasingly more important. A co-operative relationship is developing among the colleges, the two most significant illustrations of which are:

1. The general use by the students of all the cooperating colleges of the library given to Atlanta University by the General Education Board, and
2. The co-operation of all the colleges with Atlanta University in the summer school.

Further co-operative arrangements have been made through Atlanta University, providing to a limited extent for an exchange of teachers, and to a wider extent for the opening of junior and senior courses offered by any college to students of all the colleges.

The principle has been adopted that, so far as facilities permit in teachers, laboratories, equipment, and transportation, Clark College may offer courses to be found in any of the colleges in the junior and senior years.

RELATIONSHIP OF CLARK COLLEGE AND GAMMON THEOLOGICAL SEMINARY

The administrative organization of Clark College is distinctly separate from that of Gammon Theological Seminary, yet, their general relationship brings about a close academic relationship between the two schools. By agreement of Clark College and Gammon Theological Seminary, arrangements have been effected whereby students pursuing work at Gammon Theological Seminary may also pursue work in the College of Liberal Arts of Clark College; making it possible for theological students who have not done so already, to complete also college work. Likewise, students registered for their primary work at Clark College may pursue certain courses at Gammon Theological Seminary.

Courses Allowed Gammon Students at Clark

Students of Junior and Senior classifications registered for major work at Gammon Theological Seminary may pursue two courses (not exceeding eight hours in the college department) each semester at

Clark College without paying a tuition fee. In case scientific courses are chosen the regular laboratory fee must be paid.

Students below Junior classification must register for full work and pay full tuition at Clark.

Work Allowed Clark Students at Gammon

Students registered for major work at Clark College may register also for courses at Gammon Theological Seminary, but in no case will such student be allowed to register for work in the two institutions in excess of the average or maximum load which a student is allowed to carry at Clark College.

Students registered in Clark College may major in Religious Education by pursuing courses in Religious Education at Clark College and Gammon Theological Seminary. Courses will not bear credit at both Clark and Gammon. The maximum amount of credit that will be allowed any student for work pursued at Gammon Theological Seminary is thirty-six hours, taken from fields listed above, and groups listed under the Department of Religious Education.

THE COLLEGE OF LIBERAL ARTS AND SCIENCE

Organization of the Curriculum

The curricula of the College are divided into two distinct levels. (1) Lower Level, or Junior College; and (2) Upper Level, or Senior College. On the Lower Level the courses are general in character and are designed to complete the student's general education, and at the same time to lay the foundation for more specialized work on the Upper Level. The courses on the Upper Level make possible concentration in one or more fields. The Upper Level consists of four large divisions: (1) Division of Languages and Literature; (2) Division of Natural Sciences and Mathematics; (3) Division of Social Sciences; and (4) Division of the Arts. The student may select one of these divisions in which to concentrate on the Upper Level.

Divisional Organization

- I Division of Languages and Literature.
 - 1. English
 - 2. French
 - 3. German
 - 4. Spanish
- II Division of Natural Sciences and Mathematics.
 - 1. Biology
 - 2. Chemistry
 - 3. Mathematics
 - 4. Physics
- III Division of Social Sciences.
 - 1. Business Administration and Economics
 - 2. Education and Psychology
 - 3. Social Science
 - a. Economics
 - b. History
 - c. Political Science
 - d. Sociology
 - 4. Religion and Philosophy
 - a. Philosophy
 - b. Religion
 - c. Religious Education
- IV Division of the Arts.
 - 1. Art
 - 2. Drama
 - 3. Home Economics
 - 4. Music

Course Numbering

The scheme for numbering courses in the catalogue follows:

A and B courses are Junior College courses. A courses are primarily freshman courses, and B courses are primarily sophomore courses. The courses numbered C and D are Senior College courses. The C courses are for both Juniors and Seniors, while the D courses are for Seniors exclusively. The numbers following the letters also indicate the sequence of courses. The odd numbers signify first semester courses and the even numbers signify second semester courses.

**PROSPECTUS OF COLLEGE REQUIREMENTS
FOR BACHELOR OF ARTS DEGREE**

Education—no semester hours. (Freshman courses.)

English—13 semester hours, of which 6 hours shall be compositions, 1 speech, and 6 introduction to Literature.

Foreign Language—12 semester hours of the same language.

Mathematics—6 semester hours of Mathematics. (Freshman Mathematics.)

Science—12 semester hours; distributed between two sciences.

(1) Survey of natural sciences required.

(2) One other science elective.

Social Sciences—12 semester hours; of which 6 shall be Social Science A1 and A2, and 6 shall be American History.

Psychology—3 semester hours, preferably General Psychology, although the equivalent amount may be substituted for this requirement in Education.

Religious Education—6 semester hours.

The remaining 58 semester hours may be selected from one of the four divisions.

DIVISION OF LANGUAGES AND LITERATURE

DEPARTMENT OF ENGLISH

Aims

1. To help students realize that effective communication is vital to the development of a satisfactory personal life, a productive occupation, educational advancement, and for intelligent citizenship.
2. To facilitate learning in other areas of instruction through the effective use of English as a tool.
3. To increase students' ability to communicate their own thoughts and to understand the thoughts of others.
4. To develop an appreciation for the artistic expression of the great literary figures of the world, and to stimulate creative writing.
5. To give basic training in speech, stage action, and play production.
6. To provide basic preparation for writing news articles.
7. To give basic training for graduate study.
8. To give adequate preparation for students interested in teaching English.

All students are required to take A1-A2. All students, except English Majors, are required to take English B1-B2. English Majors must take English B3-B4 as a prerequisite for all other courses in the Department.

Candidates for graduation are required to take an examination in English fundamentals. The examination is given the second semester of the sophomore year and the first semester of the junior year. Students who are found deficient in the mechanics of expression are required to take English A3. Any student in any department of the college unable to express his thoughts with a reasonable degree of accuracy may be required to take A3.

Requirements for Concentration:

Major: Thirty semester hours, exclusive of Courses A1-A2. The program must include: C1-C2, C7, C9, C10, A6.

Minor: Eighteen hours exclusive of courses A1-A2. The program must include: C1-C2, C9, and A4 or A6.

Candidates who select English as a major or minor subject must have a grade of at least "C" in A1-A2. The Department strongly recommends that students who intend to choose English as a major subject take a course in English history and elect twelve hours in related subjects. Not more than six hours credit in speech or dramatics will count toward a major program in English.

DESCRIPTION OF COURSES

Composition

English A.—Reading and Writing. A course designed to develop college-level proficiency in reading and writing. As far as possible training is suited to individual needs. The class in writing meets three hours a week. Both semesters. Emphasis is placed upon grammar, punctuation, spelling, use of the dictionary. One semester is devoted to problems of reading. The class meets two hours a week. Credit, six semester hours.

A1-A2—Written and Oral Composition. Instruction and practice in the technique of written and oral expression. Both semesters. Credit, six semester hours.

A3—English Fundamentals. A study of the minimum essentials of grammar and syntax necessary for intelligible and accurate expression with emphasis on expository writing. Recommended for advanced students who show marked deficiencies in expression. Both semesters. No credit.

A4—Advanced Composition. A course devoted to the study of problems and practices in expository, descriptive, persuasive, and narrative composition. Group and individual projects designed to develop greater proficiency in students capable of writing on a more advanced level than that required in the Freshman Composition course. Students admitted to course upon permission of instructor. Credit, three semester hours.

A5—Writers Workshop. A laboratory course in writing, designed for those students demonstrating marked ability in factual or fictional composition. Emphasis on individual projects. Projects in various forms—the essay, poetry, fiction, playwriting—may be pursued by students demonstrating interest and competence. Students admitted to course upon permission of instructor. Credit, three semester hours.

A6—Introduction to Journalism. A study of what newspaper work is, where newsmen work, what they do, who should be newsmen, and how to become a newsman. Practice in writing: personals, society, meetings, speeches, sports, business, and government in the news is a part of the course. The newspaper audience, newspaper organization, news values, and journalistic vocations stressed. Credit, three semester hours.

A7—Article Writing. The following forms are studied: magazine article, feature article and editorial. Practice in newspaper writing and editing is stressed. Credit, three semester hours.

A8—The Media of Mass Communications. An examination of the techniques employed by the propagandist with application to war, revolution, and politics; the agencies of communication that serve as channels of propaganda with special reference to the newspaper and its ethics. Credit, three semester hours.

A9—Editorial Techniques. Instruction and practice in copyreading, headline writing, news display, illustration. The class will serve as a laboratory for editing the college newspaper. Credit, three semester hours.

Literature

B1-B2—Introduction to Literature. A course designed to develop the student's ability to understand, interpret, and appreciate literature. First semester: the short-story, novel and essay; second semester: biography, poetry and drama. Required of all sophomores, except English majors. Both semesters. Credit, six semester hours.

B3-B4—Survey of English Literature. A comprehensive study of the history and masterpieces of English literature from its beginning to 1914. Intended primarily to give the English major and minor a general knowledge essential to more specialized study. Both semesters. Credit, six semester hours.

C1-C2—American Literature. A study of the development of American letters. First Semester: Revolution to the Civil War. Second Semester: 1865 to the present. Both semesters. Credit, six semester hours.

C3—American Folk Literature. Backgrounds of American literature and life revealed in traditional tales, ballads, proverbs, games, customs, and place-names. An introduction to the science of folk literature. Emphasis upon ballads, and upon methods of collecting and classifying folklore. Credit, six semester hours.

C4—Studies in Restoration and Eighteenth Century Literature. A study of the types of literature characteristic of the Restoration and early eighteenth century. Consideration is given the relation of the literature to the social, political, and philosophical movements of the period. Credit, three semester hours.

C5—The Romantic Period. A study of the general literary tendencies and thought of the period and emphasis upon the produc-

tions of Wordsworth, Coleridge, Byron, Shelley and Keats. Credit, three semester hours.

C6—The Victorian Period. A study of the general literary tendencies as reflected in the major poets and essayists of the age. Credit, three semester hours.

C7—Methods of Teaching English in Secondary Schools. A study of recent tendencies in methods of and materials for the teaching of composition and literature. Designed especially for prospective English teachers. Prerequisite, Education B1. Credit, three semester hours.

C8—The English Drama to 1642. The origin of the drama; mysteries, moralities; the rise of professional actors; the development of stagecraft; the court plays; the academic drama; the erection of permanent playhouses; the contemporaries of Shakespeare. Credit, three semester hours.

C9—Shakespeare. A study of a number of representative plays. Emphasis upon the great tragedies and later comedies. Credit, three semester hours.

C10—World Literature. A course designed primarily to acquaint the student with selected world masterpieces in translation. Attention is given to the historical and philosophical background directly affecting our heritage. Credit, three semester hours.

C11—An Introduction to Contemporary Literature. An introduction to the significant writers, works, and shaping forces of the period from 1920 to the present. This Course is designed to acquaint the student with the history and the landmarks of the literature produced during this period. Prerequisites: English A1, A2, B1, B2. Credit, three semester hours.

C12—Literature by Negro Americans. A study of literary productions by Negro Americans from the 18th Century to the present day, with emphasis on the period from 1920-1948. Credit, three semester hours.

SPEECH AND DRAMATICS

Speech A is required of all students.

Minor: Fifteen semester hours exclusive of the required courses English A1, A2, B3, B4.

A—Fundamentals of Speech. Criticism, study and practice in the best prevailing standards of American speech. Units in speech correction, phonetics, conversation, social introduction, parliamentary procedures, the business interview, and the short public address.

B1-B2—History of the Theatre. A course tracing the development of the drama from the classic Greek Theatre to that of the present day. Attention is given to plays and production techniques; the development of style; the social, political, economic, and artistic climate of each period; and to significant figures connected with the theatre, from ancient times to the present. Credit, six semester hours.

C1-C2—Play Production. A course designed to acquaint the student with the technical aspects of the theatre. The course includes theory and practice in lighting, scene construction, set designing, make-up, costuming, and use of sound effects. Students in the course are expected to take technical assignments on the production staff of the Clark College Playhouse.

C3—Fundamental Techniques of Acting. A course in elementary acting techniques, character analysis, pantomime, voice, and diction and interpretation. Students will appear in classroom performances weekly and will be expected to do one major role for public performance during the semester. Credit, three semester hours.

C4—Fundamentals of Directing. A course in fundamental techniques of play directing. Theory and practice in play analysis, casting, designing the action, backstage organization, and the development of style in directing. Students will direct classroom scenes and one act plays, and will serve in directing capacities for the production of the Clark College Playhouse. Credit, three semester hours.

D1-D2—Advanced Speech. Advanced training in speech for those students interested and efficient in the area of public address and performance. Projects in radio speaking and acting, debate, public address, interpretative reading, and public discussion will be assigned. Each student will be expected to make six public appearances. Prerequisites: A1 and A2. Credit, six semester hours.

D3—Phonetics. Study of vowels, consonants and their relation to the effective production of speech. Use of phonetic symbols in designating sounds and in analyzing and recording speech. Attention is given to the uses of phonetics in speech correction for the prospective teacher.

DEPARTMENT OF FOREIGN LANGUAGES

(French, German, and Spanish)

Aims of the Department:

- I. Lower Level or Junior College:
 1. To develop the ability to read with comprehension in the language studied.
 2. To develop a basic speaking knowledge of the language.
 3. To develop a basic knowledge of grammar.
- II. Upper Level or Senior College:
 1. To continue the development in the aims stated for the Lower Level.
 2. To develop the ability to write in the language with some degree of fluency.
 3. To further develop a knowledge of the structure of the language studied by a study of syntax, style, and practice in free composition.
 4. To introduce the student to the study of the literature and culture of the people whose language is being studied.
 5. To prepare the student for teaching or for graduate work through concentration in one of the languages.

Requirements for Concentration:

Major: Twenty-four semester hours, exclusive of course A1-A2.

Minor: Eighteen semester hours, exclusive of course A1-A2.

French

A1-A2—Elementary French. A course designed to begin the development of a working vocabulary, to develop correct pronunciation and a sufficient knowledge of grammar to enable the student to handle the simpler reading texts.

B1-B2—Intermediate French. A course designed to complete the development of an adequate vocabulary and sufficient knowledge of grammar to enable the student to read and comprehend without the necessity of translation texts of average difficulty. Prerequisite, A1-A2, or two years of high school French.

B3-B4—Composition and Translation. A course designed to develop ability in free composition, to further develop the knowledge of grammar by a study of idioms. Prerequisite, two years of college French or its equivalent.

B5-B6—Survey of French Literature, 842 to 1900. A course designed to introduce the student to the field of French Literature and to methods in research and investigation. Prerequisite for all literature courses.

B7-B8—French Civilization. The purpose of this course is to give the student a broad cultural background in the culture and civilization of the people whose language he is studying or hopes to study. The course is given in English and may be accepted for credit in other departments upon permission. Prerequisite, Sophomore standing. Credit, six semester hours.

C1-C2—Advanced Syntax and Composition. A course to improve oral and written expression and knowledge of syntax.

C3-C4—Seventeenth Century French Literature. A course designed to acquaint the student with the Golden Age of French Literature.

C5-C6—Conversation and Diction. The purpose of this course is to train the students to understand the spoken language and to be able to carry on a conversation in the language with a reasonable degree of fluency and with accuracy. Prerequisite, B1-B2. Credit, six semester hours.

C7—Methods and Techniques in the Teaching of the Modern Foreign Languages. A course designed for those preparing to teach a modern language. A study of the history of modern language teaching in the United States, methods of class instruction; class management; use of Audio-Visual aids in language teaching; organization and operation of a language laboratory. Credit, three semester hours.

C8—Laboratory Phonetics. A course offered to sophomores and advanced Modern Language students. Credit, one semester hour.

German

A1-A2—Elementary German. Study of languages, composition, translation, oral resumes, careful drill upon pronunciation, inflection of the articles, adjectives, weak verbs and the more usual strong verbs. Three hours per week throughout the year. Credit, six semester hours.

B1-B2—Intermediate German. Drill upon the rudiments of grammar, dictation, German conversation, topical reviews, the reading of prose and poetry with practice in oral and written composition. Open to those who have received credit for Elementary German A1. Three hours per week throughout the year.

Spanish

A1-A2—Spanish. Grammar, pronunciation, acquisition of vocabulary, composition and conversation for beginners. Credit, six semester hours.

B1-B2—Spanish. The purpose of this course is to give students a reading knowledge of texts of average difficulty. Prerequisite, Spanish A1 and A2. Credit, six semester hours.

B3-B4—Conversation and Diction. The purpose of this course is to train the students to understand the spoken language and to be able to carry on a conversation in the language with a reasonable degree of fluency and with accuracy. Prerequisite, B1-B2. Credit, six semester hours.

C1-C2—Survey of Spanish Literature. A comprehensive study of the history and masterpieces of Spanish literature from its beginning until the twentieth century. Both semesters. Credit six hours. Prerequisite: Spanish B1-B2.

C3—Review Grammar and Composition. A course designed as a review of the essentials of Spanish grammar and syntax necessary for accurate written and oral expression. Credit, three semester hours. Prerequisite: Two years of college Spanish.

C4—Methods and Techniques in the Teaching of the Modern Foreign Languages. A course designed for those preparing to teach a modern foreign language. A study of the history of modern language teaching in the United States; methods of class instruction; class management; use of Audio-Visual aids in language teaching; organization and operation of a language laboratory. Credit, three semester hours. Prerequisite: Three years of Spanish on the college level.

DIVISION OF NATURAL SCIENCES AND MATHEMATICS

NATURAL SCIENCES

The Science Division has experienced a growth in equipment, personnel, curriculum and standards within recent years that put it in the forefront among similar colleges. It occupies a large portion of the first floor of Haven-Warren Hall. Each laboratory is spacious, well-lighted and well equipped with the necessary apparatus, chemicals and specimens for the courses listed by the various departments.

In keeping with modern educational methods an audio-visual room with a seating capacity of one hundred provides ample opportunity for enriched teaching and motivation. Included among the more useful pieces of equipment found here are several 16 mm. silent and sound projectors, recording machines, a microprojector, and a wide variety of models and charts. Fluorescent lights, good acoustics and large demonstration-lecture bench also contribute substantially to the general usefulness of this room.

In addition to the space in Haven-Warren Hall there is a large workshop building consisting of two wings housing a general workshop and an electronics laboratory separated by a photographic dark room and several individual research laboratories.

Policies pertaining to the fulfillment of the Divisional Requirements for the B.S. and A.B.

1. Students working toward a B.S. degree are required to complete a minimum of 30 hours distributed over his minor and other related fields in keeping with catalogue regulations. Alternately and upon approval of the advisor, a student may substitute a second major in a related field.
2. Students working toward an A.B. degree with a major in science must complete a minimum of 30 semester hours in his field and also satisfy departmental requirements in the related fields.
3. German is preferable and is recommended as the foreign language of the Division.

In order to effect a smoother transition from the undergraduate level to graduate study a program of research has been established on the senior level. Each department of the Division co-operates to the full extent of its facilities as well as in the matter of advice.

The majors and minors of the various sciences are listed below. However, each student should be advised each year, in making up his schedule by the head of the department.

DEPARTMENT OF BIOLOGY

Aims

1. To give a comprehensive view of the biological sciences in all of their phases.
2. To give a comprehensive view of the biological sciences in relation to other sciences and other areas of knowledge required for a liberal education.
3. To develop scientific interests and scientific habits of thought.

4. To give pre-medical training.
5. To meet biology requirements for home economics, nurse training and other related areas.
6. To lay the foundation for graduate study.
7. To prepare teachers of the biological sciences.

Major: 30 semester hours. Required courses: B3-B4, C1-C2, C3, C4, C5.

Minor: 20 semester hours. Required courses: B3-B4, C1-C2.

Work in the Department of Biology may be commenced with course B1-B2, or B3-B4. Students expecting to do advanced work in Biology and those preparing for medicine should begin with course B3-B4. Course B1-B2 is recommended for students who desire a cultural knowledge of biological method and matter, but are not intending to specialize in science.

Students expecting to major in Biology are strongly advised to take one year of Organic Chemistry and one year of Physics, and to work out their language requirement in German or French.

B1-B2—General Biology. Three hours lecture. Year course, credit six semester hours. The fundamental principles of animal and plant life are studied. This course is chiefly for students who are not expecting to major in Biology.

B3-B4—General Zoology. A general survey of the main types of animals, their classification, structure, life history, and interest to man. Laboratory work on representative animals with special emphasis on invertebrates. Two hours lecture, four hours laboratory. Year course, eight semester hours. Required of all majors and minors.

B5—General Botany. Semester course. Two hours lecture, four hours laboratory. A general survey of the main types of plants, their classification, structure, and interest to man.

C1-C2—Comparative Anatomy of Vertebrates. A comparative study of the organ systems from a series of selected vertebrates. This course begins with the simplest and goes through the most complex types of vertebrates with special reference to man. Two hours lecture, and at least four hours laboratory. Year course, eight semester hours. Prerequisite, B3-B4. Required of all majors and minors.

C3—Animal Histology and Micrology. Laboratory technique, descriptive illustrations. Details of cell structure; elements of tissue; tissue culture; tissue complexes. Two lectures, six hours laboratory each week. Semester course. Four semester hours. Prerequisite, B3-B4, C1-C2. Required of all majors. A knowledge of Chemistry is desirable.

C4—Vertebrate Embryology. The early embryological development of vertebrates, including fertilization, cleavage, and origin of organ systems. Two hours lecture, and at least four hours laboratory. Semester course, credit, four semester hours. Prerequisite, B3-B4, C1-C2. Required of all majors.

C5—General Physiology. A study of human anatomy and physiology. The habits and ideals that are necessary for the maintenance of health. Sources of vital energy, mechanism of response, co-ordination and hereditary transmission are carefully considered. Prerequisite, C1-C2; a knowledge of Chemistry and Physics is desir-

able. Home Economics students may be admitted by special permission. Two hours lecture, four hours laboratory each week. Credit, four semester hours.

C7—General Bacteriology. A course dealing with the general methods for the culture of microorganisms. Methods of staining and isolating the common bacteria that are found in many of our foods are taken up in this course. The chemical changes in foods that are caused by microorganisms are carefully observed. This is an elective course, and is recommended for Home Economics students. Prerequisite, eight hours of biological sciences, four of which should be in Botany, eight hours of Chemistry. Credit, four semester hours.

C8—General Genetics. A discussion of the mechanism of heredity. Laboratory work with *Drosophila melanogaster*. Two hours lecture and four hours laboratory. Prerequisite: C4. Credit: four semester hours.

DEPARTMENT OF CHEMISTRY

Aims

1. To emphasize the general use of chemistry in daily living and in producing the thousands of products available through industry.
2. To give a general view of chemistry in relation to other sciences.
3. To provide basic training for those desirous of specializing in this field.
4. To meet chemistry requirements for the Bachelor of Science degree in Home Economics and related fields.
5. To prepare those interested in the teaching of chemistry.
6. To prepare those interested in the field of industrial chemistry and other types of laboratory research.

Major: A3-A4, B1, B2, B3-B4, C4, and one other course.

Minor: A3-A4, B1, B3-B4.

A3-A4—Inorganic Chemistry. Year course, credit, eight semester hours. This course gives the fundamental laws and reactions of chemistry. It treats of the structure composition and reactions of inorganic matter; of the properties of compounds, of the chemical behavior of the metals and non-metals, of the relationships of the elements as shown by the periodic system, of the stoichiometry involved in volume changes, and in metathetical and oxidation-reduction reactions. Compounds are prepared, reactions noted, and the fundamentals of chemical technique developed. Two hours lecture, four hours laboratory. Required of all Chemistry majors and minors, Biology majors, Home Economics majors.

B—Organic Chemistry—Short Course. A study of the hydrocarbons and their derivatives, the carbohydrates, proteins, fats, vitamins, the aromatic compounds as they lead to a study of synthetic dyes. First Semester. Credit, four hours. Prerequisite: Inorganic Chemistry. This course is given for students in Home Economics.

B1—Qualitative Analysis. First semester. Credit, four semester hours. To train the student in exact methods and careful manipulation in the separation and identification of the more important

metallic and non-metallic ions, to clarify the reasons for the procedures used, to apply to them the principles relating to solubility, ionization, complex molecule formation, oxidation and reduction in solutions, and other laws of chemical equilibrium. Two hours lecture, four hours laboratory. Required of all Chemistry majors and minors. Prerequisite, A3-A4 or its equivalent.

B2—Quantitative Analysis. Second semester. Credit, four semester hours. An elementary course in Quantitative Analysis, acquainting the student with the more frequently used quantitative operations in volumetric and gravimetric analysis. Problems include metathetical and oxidation-reduction reactions, hydrogen ion concentration, and selection of indicators. One hour lecture, six hours laboratory. Required of all Chemistry majors. Prerequisite, B1.

B3-B4—Organic Chemistry. Year course. Credit, eight semester hours. The fundamental principles of Organic Chemistry, some applications of the electron theory, stereochemistry, tautomerism, study of the aliphatic series, proteins, carbohydrates, aromatic compounds, the synthetic drugs and dyes, plant and animal pigments. Organic compounds prepared. Two hours lecture, four hours laboratory. Required of all majors, majors in Home Economics, majors in Biology. Prerequisite, A3-A4, or unusual background in high school chemistry.

C1-C2—Elementary Physiological Chemistry. Year course. Credit, eight semester hours. Chemistry of the carbohydrates, lipins, proteins, and vitamins with emphasis upon physiological processes. Qualitative analysis of foods for nutritional content, and of some body products including the blood and the urine. Two hours lecture, four hours laboratory. Required of certain students for Chemistry major. Recommended for Home Economics majors, and Biology majors. Prerequisite, B3-B4 and Biology.

C4—Theoretical Physical Chemistry. Semester course. Credit, three semester hours. A study of the laws and theories of chemical phenomena. A variety of problems. Three hours lecture. Required of majors for whom C1 is not required. Prerequisite, B1 and B2, or concurrent with B2, Physics A1-A2.

D1-D2—Laboratory Administration, Materials and Methods. Designed for students who wish to teach Chemistry in the high schools. Credit and hours to be arranged.

DEPARTMENT OF MATHEMATICS

Aims

1. To equip the student for practical application of mathematics to everyday problems.
2. To develop critical and accurate thinking on the part of the student.
3. To prepare the student for the study of the natural sciences.
4. To prepare teachers of mathematics.
5. To prepare students for advanced study in the field of mathematics.

Major: B1, B2, B5, B6, B7, C1, C2, C5, C8, C9, All students who major in mathematics will be required to take Physics A1-A2.

Minor: B1, B2, B5, C5 or B7, C1, C2.

A1-A2—Freshman Mathematics. This course includes a review of elementary algebra, quadratic equations, theory of exponents and radicals, binomial theorem, the arithmetic and geometric series, logarithms and numerical trigonometry, and an introduction to analytic geometry. This course is required of all freshmen, and it furnishes a much needed background for the higher courses in mathematics. Credit, six semester hours.

A3—Business Mathematics. This course has for its purpose the presentation of fundamental arithmetical principles and of mathematical business topics and problems. It provides the number work necessary to pursue successfully the other subjects in the business curriculum and equips the student with a working knowledge of the basic principles of business mathematics. The course is required of all business major students. Credit, three semester hours. First semester.

B1—Plane Trigonometry. This course includes the solutions of triangles, identities, and trigonometric equations. This course aims to give the student the fundamental formulae of trigonometry and a command of logarithms. It is a prerequisite to course B2. Credit, three semester hours. First semester.

B2—Plane Analytic Geometry. An introductory course in plane analytic geometry including rectangular, oblique and polar coordinates in the plane, the straight line and an introduction to the conic sections. This course is a prerequisite to course C1 and is open to students who have had course B1. Credit, three semester hours. Second semester.

B5—College Algebra. This course includes quadratic equations, progressions, binomial theorem, logarithms, inequalities, mathematical induction. It is a prerequisite to courses B6, C4 and C5. Credit, three semester hours. First semester.

B6—Advanced College Algebra. This course includes Progressions, mathematical induction, binomial theorem, complex numbers, theory of equations, permutations, combinations and probability, determinants, partial fractions and logarithms. Open to students who have had course B5. Credit, three hours. Second semester.

B7—Solid Analytic Geometry. This course includes the study of planes and straight lines, conicoids, polar, spherical and cylindrical coordinates, and the general equation of the second degree. This course is a prerequisite to course C8. Open to students who have had course B2. Credit, three semester hours. First semester.

B8—Elementary Mathematical Statistics. This course consists of collection and classification of data; tabulation and graphical representation of data; averages; errors; measures of dispersion; the percentile method; the normal probability curve. Credit, two hours. Second semester.

C1—Differential Calculus. This course deals with methods of differentiation, maxima and minima, the differential, curvature, and indeterminate forms. It is a prerequisite to course C2, and is open to students who have had course B2. Credit, three semester hours. First semester.

C2—Integral Calculus. This course includes methods of integration, applications of the calculus to problems in mechanics and physics. It is a prerequisite to course C8, and is open to students who have had course C1. Credit, three semester hours. Second semester.

C4—Mathematics of Investment. This course deals with the study of interest, annuities, amortization, bond valuation, problems in life insurance. Open to students who have had course B5. Credit, three semester hours. Second semester.

C5—Theory of Equations. This course consists of the study of complex numbers; solutions of cubic and quartic equations; theorems on roots of equations; determinants. Open to students who have had courses B5 and C1. Credit three semester hours. First semester.

C6—The Teaching of Mathematics in Secondary Schools. This course consists of a study of the field of secondary mathematics from the quantitative and qualitative viewpoints; review of the field of high school mathematics; adaptation of high school mathematics to the needs of the pupil. Open to students who have completed at least twelve semester hours in mathematics. Credit, two hours. Second semester.

C8—Calculus III. This course includes the study of infinite series; expansion of function; differential equations; partial differentiation; maxima and minima. Open to students who have had courses B7 and C2. Credit, three hours. Second semester.

C9—Differential Equations. This course includes methods of solving ordinary differential equations with problems in applied mathematics involving ordinary differential equations. Open to students who have had course C2. Credit, three semester hours. Second semester.

D1—Advanced Calculus. A course treating of the convergence of simple and multiple integrals; functions defined by improper integrals; line and surface integrals; theorems of Green and Stokes; elliptic integrals and functions. Prerequisite: Calculus III. Credit, three semester hours.

DEPARTMENT OF PHYSICS

Aims:

1. To develop within the student an appreciation of the potentialities of the world's resources of power and energy.
2. To equip its major students with the basic physical concepts which shall serve as a foundation for graduate study, research or industrial employment.
3. To prepare those who are interested in teaching physics and related sciences.
4. To aid in developing the general cultural life of students.

Requirements

Major: Thirty semester hours are required for a major in physics. A major shall include: Physics A1, A2, C1, C5, C6, D1, D2, D4.

Minor: Eighteen semester hours are required for a minor in Physics. A minor shall include: Physics A1, A2, and two other courses.

Required courses in mathematics are designated as prerequisites.

DESCRIPTION OF COURSES

A1—Elementary Mechanics, Heat, and Sound. This course is intended to introduce the student to the fundamental principles of Mechanics, Heat, and Sound. The practical application of these principles is demonstrated by selected problems, individual laboratory experimentation and lecture demonstrations. Lecture, three hours per week. Laboratory, three hours per week. Credit, four semester hours. Prerequisite, Math B1, Math B5. Text: Hausmann and Slack, PHYSICS.

A2—Elementary Electricity, Magnetism, Light, and Modern Physics. This course is on the same level and Physics A1 treating the branches Electricity, Magnetism, Light, and Modern Physics. Lecture, three hours per week. Laboratory, three hours per week. Credit, four semester hours. Prerequisite, Physics A1. Text: Hausmann and Slack, PHYSICS.

B1—Household Physics. This course concerns itself with the application of the principles of physics to the solution of various problems that arise in Home Economics. Lecture, three hours per week. Laboratory, three hours per week. Credit, four semester hours. Prerequisites, Math A1 and Math A2. Text: Avery, **HOUSEHOLD PHYSICS**.

B2—Photography. This course is designed to teach the techniques in photography essential for science majors and for those students who wish to develop this subject as a hobby. Lecture, three hours per week. Laboratory, to be arranged. Credit, four semester hours. Prerequisite, none. Text: Lecture notes.

B3—Acoustics. A study of the physics of music, speech and architectural acoustics, with special emphasis on the basic principles of sound and their application to present day problems. No previous work in either physics or mathematics is required for those who wish to enroll for credit in other departments. However, those who wish to enroll for credit in physics will be expected to go more thoroughly into the subject. Lecture, three hours per week. Laboratory, three semester hours. Credit, Four semester hours. Prerequisites, Physics A1 and Physics A2 (for credit in physics).

C1—Heat. This course is designed to extend the elementary general physics course. The historical aspects of the subject are considered along with the modern developments and their applications. Lecture, three hours per week. Laboratory, three hours per week. Credit, four semester hours. Prerequisites, Physics A1-A2, Math C1-C2. Text: Cork, **HEAT**.

C3-C4—Introduction to Mathematical Physics. This course treats vector analysis, infinite series, complex variables, Fourier series, special functions and partial differential equations of physics. It is designed to acquaint the student with the mathematical approach to the understanding of physical phenomena. Lecture, three hours per week. Laboratory, none. Credit, Three semester hours. Prerequisites, Math C1 and Math C2. Texts: Sokolnikoff and Sokolnikoff, **HIGHER MATH** and Pipes, **APPLIED MATH**.

C5-C6—Mechanics. A course designed to extend the introduction given in Physics A1. This course offers a thorough investigation of many of the classical problems in physics. Lecture, three hours per week. Laboratory, none. Credit, three semester hours. Prerequisites, Physics A1-A2, Math C1-C2. Text: Inglis, **Dynamic Principles of Mechanics**.

C7—Laboratory Techniques. This course is designed to give the student experimental practice in fundamental laboratory techniques, machine shop procedures and glass-blowing. Lecture, none. Laboratory, six hours per week. Credit, two semester hours. Prerequisites, none. Text, none.

D1-D2—Electricity. This course is designed to give the student of physics a thorough foundation in the basic principles of electricity and to develop technique in making electrical measurements. Lecture, three hours per week. Laboratory, three hours per week. Credit, four semester hours. Prerequisites, Physics A1-A2-C1-C3-C4, Math C1-C2. Texts: Page and Adams, **PRINCIPLES OF ELEC.**; Harnwell, **ELEC. AND ELECTROMAGNETISM**.

D3—Teaching of High School Physics. This course is for prospective teachers in high schools. It is intended to meet the needs of this group with respect to those things that are not generally

considered in the subject-matter courses. Attention is devoted to sources of supplies, current literature, preparation and presentation of physics demonstration, problems in organization and supervision of the laboratory. Lecture, three hours per week. Laboratory, none. Credit, three semester hours. Prerequisites, Physics A1-A2. Text: Lecture notes.

D4—Spectroscopy. This course is designed to meet the needs of advanced students in physics, chemistry, and biology. A study is made of the various instruments used in spectrum analysis and considerable time is devoted to the theoretical aspects of the subject. Lecture, three hours per week. Laboratory, three hours per week. Credit, four semester hours. Prerequisites, Physics A1-A2.

D5-D6: Modern Physics. A study of the modern developments in atomic physics. This course is basic for the understanding of many of the present day researches in physics, chemistry and biology. Lecture, three hours per week. Laboratory, none. Credit, three semester hours. Prerequisites, Physics A1, A2, C1, C5, C6 and Math C1-C2.

D7—Experimental Physics. This course consists of a selected group of experiments. The student performs advanced experiments in physical optics, the classical Millikan Oil Drop Experiment, measures the ratio of e/m and investigates the properties of natural and artificial radioactive substances by use of electroscopes and Geiger-Mueller counters. Sub units of research equipment, or complete experimental assemblies for elementary research problems are constructed. Open to physics majors only. Lecture, none. Laboratory, six hours per week. Credit, two semester hours. Prerequisites: Open to physics majors only. Text: Harnwell and Livingood, EXP. ATOMIC PHYSICS.

D8—Electronics. This course treats gas-filled tubes, thermionic vacuum tubes, photosensitive tubes and ionization gages with application to radio communication and laboratory control circuits. Lecture, three hours per week. Laboratory, three hours per week. Credit, four semester hours. Prerequisites, Physics D1-D2. Text: Millman and Seely, ELECTRONICS.

D9—Introduction to Theoretical Physics. A course designed for those students showing exceptional ability and interest in the theoretical approach in physics. A comprehensive study of classical physics with an introduction to the quantum theory. Lecture, three hours per week. Laboratory, none. Credit, three semester hours. Prerequisites, Physics C3, C4, C5, C6, C1, D1, D2, D5, D6. (or by special permission of the staff.)

The following courses are to be omitted in 1952-53:

B2—Photography.

B3—Acoustics.

C7—Laboratory Techniques.

D1-D2—Electricity.

D3—High School Physics.

D4—Spectroscopy.

D7—Experimental Physics.

D8—Electronics.

D9—Theoretical Physics.

Survey Course

A1-A2—Survey of the Physical Sciences. Year course, credit, six semester hours. This course is built around a central theme of man and his relation to his world. The various sciences are introduced in various times and places, wherever and whenever one or several are needed to contribute to the theme. It covers such topics as: Space, the origin, nature and behaviors of the bodies in it; sunlight, its nature and analysis; the earth, its constitution, structure, changes, and conditions which make for the existence and maintenance of life, especially man; the foundations of the universe, matter, energy, relation of matter and energy, primordial building blocks of the universe; science in the service of man, power, mechanics, transportation, communication, heating and lighting, nutrition and maintenance of health, agriculture and industrial arts; pre-eminence of law and order; instruments and ingenuity used by man in discovering nature's law; development of scientific concepts; scientific habit of thinking, its influence on all phases of knowledge; man as a creature of earth, his development with that of earth history; life and contribution of great scientific minds. Three hours lecture, one hour demonstration. Required of all sophomores, except those majoring in Biology, Chemistry or both, who should take a course each in Biology and Chemistry, or those majoring in Home Economics who should take Biology or Chemistry.

DIVISION OF SOCIAL SCIENCES

DEPARTMENT OF BUSINESS ADMINISTRATION AND
ECONOMICS

The work in Business Administration at Clark College has a three-fold purpose, namely:

1. To give basic courses for all students in the College.
 - a. For the purpose of giving information relative to every day business, economic problems.
 - b. To develop in students an appreciation for good business.
 - c. To develop in students the ability to demand good service and good quality in business.
 - d. To develop a philosophy relative to small business as a means of helping the Negro become more independent economically.
2. To give basic training for business as an occupation.
3. To give accurate preparation for those who wish to teach business and commercial subjects.

Major: The Major Program in Business Administration must include the following courses: Economics B1, B3, C3, Business Administration A1, B1-B2, C1, C2, C3, C4, D2, and D3, D4.

Economics B1-B2 is a prerequisite to a major in Business Administration and must be taken as the first basic course.

Minor: A Minor Program in Business Administration must include the following courses: Business Administration A1, B1-B2, B3, B4, C1-C2, D2.

Economics B1-B2 is a prerequisite to a minor in Business Administration and must be taken as the first basic course.

FINE ARTS

DEPARTMENT OF ART

The Fine Arts deal with the aesthetic contributions which make the enrichment of man's democratic way of life. One writer states "art appreciation is far more than knowing the names and dates of important artists and their works. It involves attitudes, feelings, emotions, preferences and personal tastes, for these to a large extent determine the manner in which you dress and furnish your living quarters as well as your reactions to the buildings, paintings and sculpture that you see."

Purpose of the Department

The purpose of the Department of Fine Arts is to help students become aware of aesthetics wherever it may be found and to en-

able them to intelligently criticize and appreciate any form having art implications. It further strives to serve the following functions:

1. As a part of the educational program to give the student a broad cultural survey of the fine arts.
2. To provide teaching procedures and materials suitable for teaching of art on the elementary school level.
3. To enable students to see art as an integral part of their daily living.

DEPARTMENT OF MUSIC

The College offers to the student a chance to combine some music study with his liberal arts course, and to the special music student thorough basic courses which will prepare him for professional study.

More than ever before in American education, the value of music as a cultural force is being recognized by college students. The recent years of stress have brought forcibly to the minds of men

the realization that material riches are fleeting, while the abiding values and satisfactions of life come from ability to appreciate more deeply the beauty and joy that music and art and drama can give. Students who miss this side of their education cannot be said to be well-prepared either as actors or spectators for the game of life.

Liberal arts students may major in music or select any courses for which they have the prerequisites. Special qualifications are required for work in music, hence no student should register for a major or minor in music without first consulting the adviser of the department.

Major: Sixty-two semester hours including eighteen semester hours of applied music. Required courses: A1, A2, A3, A4, A5, B1, B2, B3, B4, B5, B6, B7, B8, C1, C2, C3, C4, C5, C6, D1, D2, D3, D4, and others determined in consultation with the head of the department make a total of sixty-two semester hours of music.

Minor: Thirty-four semester hours including nine semester hours of applied music. Required courses: A1, A2, A3, A4, A5, A7, B4, B5, B6, B7, D1, and D2.

College Musical Organizations

Philharmonic Society.
 College Chorus.
 College Concert Singers.
 College Male Quartette.
 College Women's Sextette.
 College Women's Glee Club.
 College Men's Glee Club.
 College Band.

These organizations offer excellent practice for student musicians who desire development in the art of public performances.

Philharmonic Society. The Philharmonic Society is composed of fifty members chosen after rigid tests in voice production, tone, intonation, and musicianship. Compositions of the classic writer, of the Russian school, and of modern masters are studied and prepared for public performance. Open to all classes. Monday, Wednesday, and Friday. Four-thirty to five-thirty.

College Chorus. The chorus is composed of one hundred voices rehearsing weekly and presenting such programs as the Carol and Folk Song Concerts given annually in December and February.

College Concert Singers. The concert singers are a select group of mixed voices usually visiting cities in Georgia and nearby states in a series of public concerts. Their work has received high praise from critics.

College Band. The band of Clark College is composed of young men and young women from all of the classes. It offers an opportunity for the professional development and cultural expression of those interested in instrumental music.

Women's Glee Club and Men's Glee Club. These clubs are composed of twenty-five voices each which rehearse two hours each week. Membership is decided by try-outs. Open to all classes.

Women's Sextette. Members are drawn from the Concert Choir.

College Male Quartette. Membership decided by try-outs at the beginning of the term.

The College Orchestra. Membership is open to qualified students. Rehearsals daily.

MUSIC EDUCATION

A7—Introduction to Music Education. The most commonly encountered music terms are defined and applied; the characteristics of the most frequently used instruments, and simple musical forms are studied. Considerable attention is given music reading using the movable do syllables, sol-fa syllables, numbers, and monosyllables. Some time is devoted also to study of various types of music education activity and to consideration of opportunities in the music education field. Credit, two semester hours.

B7-B8—Methods and Materials I. An introductory course dealing with the aims and objectives of music education. A course designed for those preparing to teach or supervise music in the first six grades in elementary school. Problems to be considered; the child voice, monotones, song literature, rhythm problems, part singing, discriminative listening lessons and the organization and study of materials. Credit, two hours each semester.

C3-C4—Methods and Materials II. First semester: Junior High School Methods. A study of methods and materials suited for the Junior High School Chorus, and boys' and girls' glee clubs. Other

problems to be considered include the adolescent voice, voice testing, music theory and music appreciation. Second semester: Senior High Schools, mixed chorus, and boys' and girls' glee clubs. Other problems include voice testing, music theory, appreciation, conducting test and measurement and discipline. Credit, two semester hours each semester.

A8—Fundamental Music Methods. Designed to meet the standard Elementary Certificate requirements of preparation for school music teaching in primary and elementary grades. Skill in reading music notation, mastery of certain elements of music theory, problems, of music-teaching methods and appropriate music materials are covered in this course. Credit, two semester hours.

D1-D2—Choir Organization, Training and Conducting. The volunteer choir, the a cappella choir. Rehearsals, tone production, ensemble, interpretation, repertoire. The technique of directing. Observation and participation in the College Choral organizations. The Children's Choir, Theory and practice. Selection of voices. Training, Repertoire. Choral Vocal training. Community music. Community Singing, Prerequisite, B4. Credit, two semester hours.

D5—Band and Orchestra Administration. This course deals with Instrumental Department Organization, Promotion and Administration; Marching band; care, repair and purchase of music, instrument and uniforms, rehearsal technics and procedures; art of program building. Credit, one semester hour.
