A group of Atlanta Housewives, in co-operation with The Atlanta Urban League, is currently working to improve conditions of domestic workers. The group feels that one very personal way many of us can help is to adopt the following:

A
CODE OF ETHICS
FOR
EMPLOYERS
OF
DOMESTIC HELP

I Agree to Provide:

1. A business-like approach in interviewing, giving a job description, and hiring;
2. Payment of at least minimum wages of \$1.60 per hour;
3. Payment for sick leave, vacations, and social security;
4. Clearly made work assignments, expecting no more from a domestic worker than an average housewife could accomplish in the same time interval;
5. An atmosphere conducive to self-respect and dignity. Domestic workers should be called Miss or Mrs. plus last name;
6. Adequate notice when services are to be terminated.
