Dr. Ira Jarrell, Superintendent
Atlanta Public Schools
City Hall
Atlanta, Georgia

Dear Dr. Jarrell:

We are deeply concerned about the condition of our Neighborhood School in Blantown. The Blantown Elementary School on Spring Road, N. W., has been in need of major improvements for several years.

As you know, we still have outside toilets and drinking fountains. You may not know that the dirt pathway is very nearly impossible during rainy weather to get to the school. There ^{are} no lights in the school yard which discourages attenders to the P. T. A. and other gatherings at the school.

Our greatest concern at the present however, is the unsanitary and inconvenient nature of the school toilets. We would greatly appreciate any attention you can give these matters.

As President of the Blantown Civic League, I will be happy to assist you in any ways possible. Thank you for your kindness and consideration in the matter.

Most cordially yours,

T. C. Hester, President
Council of Neighborhood Organizations
of the Atlanta Urban League
