Mrs. Stortling:

I ran across the enclosed sheet which defines the A.U. Murals (Panel 6) more clearly and fully than the one I sent. This one names all the artists depicted in this panel and ~~also~~ also indicates their positions in the panel by number.

I hope the photos I sent will serve a useful purpose. I am happy for you to have them. Incidentally, the color prints of the A.U. Murals are not exactly true. In these prints the blues + blue-greens which appear very clearly in the original works are just about non-existent in these prints. Sorry, but they are all I have.

More later,

Hurriedly but Sincerely,
Halubodny
