# THE INFORMER

Number One

Published by the Atlanta University Student Committee  
April 1960

Number One

## Note

The title of this bulletin defines and explains its purpose. It is the aim of the Central Student Committee of the Atlanta University Center, through this organ, to inform the students of actions taken, and of future plans in this movement for securing human dignity.

Any future plans are subject to change without notice. This bulletin will be released bi-monthly.

Committee of Publicity

## HISTORICAL EVENT!

✓ The "Appeal For Human Rights" has now found its place in the Congressional historical records of the world. Senator Jacob Javis of New York stated in a letter to the Central Student Committee of the Atlanta University Center that the Proclamation was introduced and studied seriously in the Senate and it is now a part of history. A copy of this recording was sent to these students.

This simply verifies the fact that the things being done today all over the country among students are being recorded for tomorrow's study. History is in the making.

## STUDENT DEFENSE FUND

The need for the financial support from the students, administration and members of the community is greatly stressed by the Student Movement. We urge different clubs, organizations and individuals to pledge and contribute to this cause.

## SELECTIVE BUYING CAMPAIGN

Each day we learn that the students of various schools are boycotting chain stores throughout the South which maintain segregation at lunch counters. Many of the schools in the North, East, and Western part of the United States are marching in sympathy and carrying the boycott in their section of the states. Both Negro and White students are joining in the fight with the Southern students.

Up until this date no organized protest has been presented to the students of the University Center. Nevertheless, you can expect a campaign to be opened up in the near future. We hold that the students will offer strong and sincere cooperation. Watch and wait for the signal.

## CORRESPONDANCE

A letter serves so many purposes. It can bring joy or sorrow. It can encourage one or turn his thoughts to defeat. The recent letters received by persons working with the Atlanta University Central Committee have in almost every instance (98% of the letters) stimulated hope, encouragement and a challenge to sustain our beliefs for the cause of dignity for a human being.

The committee on communications has responded and shall continue to do so. The possibility still remains that you may want to write a "personal" letter of appreciation to the following individuals and institutions: Senators Javis and Keating of New York, Senator Harding of Michigan, the Student Body Presidents of Notre Dame University, Princeton University, Brown University, Brandeis, and Wisconsin University.
