

# Documenting the AUC Response to COVID-19 Collection

April 28, 2020

## **Douglas Green, Clark Atlanta University**

“I think it has effected me tremendously due to not having a proper closing on my senior year. Future Plans, study abroad trips, research conferences, and graduation all seem to be swept up in an instant. It has made me quite sad for all of us who are apart of the AUC community because really we had no idea this was coming and it felt like a blindsided attack to students and faculty, but especially us as graduates. There really hasn’t been an AUC experience since the outbreak since we all had to evacuate campus and go home. I’m always going to remain positive and keep pushing on and not dwelling in the negativity of our current circumstances but again it is a very sad time for most of, if not all of us.”
