

Documenting the AUC Response to COVID-19 Collection

April 29, 2020

Crystal Fox, Clark Atlanta University

“COVID-19 had affected me as a member of the AUC community by delaying my graduation that I had been planning for. Not only did it delay my graduation, but this pandemic cut my time short to spend time with my friends before we all left for Graduate school. My experience during this outbreak has been interesting. I unfortunately lost a loved one during this time, and because of the outbreak we weren’t able to have a proper funeral. Though my relative did not die because of COVID-19, there are so many people who have lost their life to it. This time has been filled with anxiousness and terror because the last thing you want is to become sick. I was able to learn a hobby and start applying for jobs in my field of study. I feel robbed of the experiences I worked so hard these last 4 years to have. During my final weeks as a senior at CAU I learned more about myself then in the last 4 years. I took this time to improve myself because when America opens back up I look forward to getting a job in my field of study.”
