## GENERAL INFORMATION

Atlanta University is a member of the Southern Association of Colleges and Schools, the Council of Graduate Schools in the United States and the North American Association of Summer Sessions. The courses offered, both graduate and undergraduate, are of the same standard as those offered in the regular session and carry the same credit. Members of the faculties of the six sponsoring institutions and educators from the faculties of leading institutions throughout the United States comprise the teaching staff.

## REQUIREMENTS FOR ADMISSION

Atlanta University has an affirmative action policy and does not discriminate on the basis of race, religion, nationality or sex in its admission or employment practices.

A student is eligible for admission to college courses if he has completed 16 regular college entrance units or their equivalent in an accredited high school. Certificates listing entrance credits must be sent directly from the principal of the school attended to the Registrar.

Students coming from other colleges may take advanced courses upon presentation of letters of qualification from their institutions. Those wishing to transfer to one of the institutions in the Atlanta University Center should apply for admission to the school in question before the opening of the summer session in order that their summer work may be approved by the school they wish to attend.

Admission to the graduate and professional schools is granted to graduates of colleges of approved standing who have done sufficient work in the field in which they wish to take the degree to meet the requirements of the department concerned. Specific requirements for the various graduate schools may be found in the regular Atlanta University Catalogue.

All applicants must complete an official application form and present a transcript of all work taken at the college level or above as well as show evidence of good character, desirable personality and high ability. Forms may be obtained from the Office of the Registrar.

The University reserves the right to require at any time the withdrawal of those students who do not maintain the required standards in scholarship, those who cannot remain in the University without danger to their own health or that of others, and those whose presence is found to lower the moral tone of the University.

## REQUIREMENTS FOR DEGREES

Undergraduate students should consult the dean of the college from which they expect to receive the degree in order to determine the specific requirements.

The requirements for graduate degrees are the same as those for the general session and may be found in the Atlanta University Catalogue or the special announcements and catalogues of the various schools of the University.

Requirements for candidacy for the various degrees awarded by Atlanta University are stipulated in the regular University catalogue.

## VETERANS

Atlanta University will do all it can to assist veterans of any branch of the armed forces to enter its graduate programs. Veterans are required to meet the same standards as other students in matters relating to grades, class at-

tendance, conduct, and graduation. The University will make whatever considerations are possible without lowering its standards and impairing the prestige of its degrees.

## **A POLICY STATEMENT ON THE CONFIDENTIALITY AND RELEASE OF INFORMATION ABOUT STUDENTS**

Atlanta University, like other institutions of higher education, accumulates and maintains records concerning the characteristics, activities and accomplishments of its students. Because the University recognizes the student's right of privacy, a policy regarding the confidentiality of the information which becomes a part of the student's permanent records and governing the conditions of its disclosure has been formulated and adopted. This policy reflects a reasonable balance between the obligation of the University for the protection of the rights and privacy of the student and its responsibility to society.

A student has the right, upon request to the proper official, to know of the existence and content of all materials that are in his official records kept by the University and to inspect and review such records except personally signed confidential documents placed in the file before January 1, 1975.

The student shall have the opportunity for a hearing by appropriate officials to challenge the content of the student's official University records, to insure that the records are not inaccurate, misleading or otherwise in violation of the privacy or other rights of students, and to provide an opportunity for the correction or deletion of any inaccurate, misleading or otherwise inappropriate data contained therein.

The information listed below is considered "public directory" information and may be released without permission from the student. A student does, however, have the right to direct that any or all of this information not be released without consent. Such request must be filed, in writing, with the Registrar's Office.

Such items include:

- a. whether or not the student is currently enrolled;
- b. the school or division in which the student is or was enrolled and his or her class or year;
- c. dates of enrollment;
- d. degree or degrees earned (if any), date of degree, major or area of concentration and honors received;
- e. local address and telephone number;
- f. home address

All other information is considered confidential and may be released only under specific conditions. A full copy of the University's policy may be obtained in the Registrar's Office.

## **COMMUNICATION SKILLS REQUIREMENT**

All entering students are required to take the examination in reading and writing on Saturday, June 17, 1978, in Dean Sage Auditorium.

The Communication Skills Examination will be given in two parts. First, a standardized reading test will be administered. This will be followed by an expository essay of between 400 and 500 words. The topics will be provided and are appropriate for the various disciplines and professions represented in the University Curriculum. There will be a number of current events topics also.

All students should register for the examination by filling out the form provided in their registration materials.

Test scores will be mailed to students by June 23.

Reading classes and composition classes will begin on Monday, June 26.

**ALL STUDENTS WHO DO NOT PASS THE COMMUNICATION SKILLS EXAMINATION MUST ENROLL IN A READING AND/OR WRITING CLASS THIS SUMMER.**

Students are asked to use the following test schedule:

1:00-3:00	3:30-5:30
