

3, Mountain Cut,
Freetown,
S. Leone,
15. July 1948.

Dear Sir/

I wish to pursue the course of Medicine in your University. My financial status is not strong enough as to taken me through the whole medical course. I am therefore asking you kindly to award me a scholarship which would enable me to pursue this study in your Versity.

If however you do not find it possible, I would be grateful to you if you could award me scholarship for ~~at~~ half the period of years or for any number of years as you could spare.

For six years I was a pupil of the Prince Of Wales School, Freetown and I have passed the Cambridge School exams. Among the subjects I took in the exam were Biology and Chemistry. Physics, Electricity and Magnetism were done for two years in the junior school.

Sir, you could see from the above that I have acquired some knowledge in the foundation-~~tal~~ principles in Science. I can safely assure you that if this opportunity be granted me, I shall endeavour to prove myself worthy of your generosity.

Hoping that this application would herald home the desired response,

I remain, Sir

Yours sincerely

C. Nwachuku-Tarrett.

Jarrett

Freetown, Sa. Leone

Dear Mr. Jarrett:

Your letter of July 15, has been received. I regret to inform you that Atlanta University does not offer work in the field of Medicine. I suggest that you apply for aid either at Meharry Medical College, Nashville, Tennessee or Howard University, Washington D. C.

Yours very truly,

REC/h

RUFUS E. CLEMENT
