My dear Dr. Clement:

There is a young man who has just finished our institution with an A.B. degree with a minor in accounting. The Liberian Government is very anxious to have him attend Atlanta University and enroll in the school of Business Administration.

Mr. Clemens is in possession of sufficient scholarship aid from the country and the United States to pay all his expenses at Atlanta University.

I am sending his transcript to you under separate cover. I do wish, however, that you will send to me or to Mr. Major Clemens a letter indicating that Atlanta University will allow him to enroll as a student at the beginning of the second semester.

Very truly yours,

J. Max Bond

Dear Doctor Bond:

In reply to your letter of December 5, let me state that we will be pleased to have Mr. Major Clemens, who has graduated from your institution, as a student in our School of Business Administration.

Will you please have your Registrar send immediately to Mr. Whittaker a complete transcript of Mr. Clemens' record. Our second semester begins with registration on Monday, January 28. Mr. Clemens should make every effort to be here at that time.

Things move along nicely here at the University. Our new classroom building, Sage Hall, is under construction.

I trust that you and the family are all well.

With kind regards, I am

Cordially,
