WHO PROMOTES AND GAINS FROM VIOLENCE?

A Jamaican Security Report on Walter Rodney (1968):

"He constantly reiterated the necessity for the use of violence in attaining his ends; the procurement of firearms and training in their use was recently a major topic of discussion. Furthermore, at one meeting at the U.W.I. campus at Mona, Rodney reportedly said, '*Revolution must come. We must be prepared to see it through. We must stop talking and indulging in academic exercises and act. Who will be the first to come with me downtown and take up a machine gun?*' "
