Spelman Baptist Seminary.

THE SPELMAN BAPTIST SEMINARY, formerly called Atlanta Baptist Female Seminary, receives its new name from the large donation made by Hon. J. D. Rockefeller, toward the payment of this property, which insures this Institution ever to be kept as a school for girls and women, in honor of the now sainted father of Mrs. Rockefeller, who was for more than forty years the firm friend of the colored race. At a time in their history when it cost much to defend the enslaved, he gave liberally of time, strength, active sympathy and intelligent service in their behalf.

A native of Ohio, where Mr. Spelman spent the greater part of his life, he died in New York in 1881, at the age of 70.

It seems fitting that the name Spelman Seminary should be conferred upon this school for women by one who, in intimate relations, loved and honored him, and whose own heart beats in earnest sympathy with every good work, and whose open hand scatters of his abundance liberal things.

In addition to the large amount already donated, Mr. Rockefeller has recently pledged ten thousand dollars towards a new building.

SCHOOL LOCATION AND BUILDINGS.

This school was established April 11, 1881, and is now conducted under the auspices of the American Baptist Home Mission Society, New York, and is supported by the Woman's American Baptist Home Mission Society of New England.

Atlanta has been chosen as the location of the school, because its healthful climate, railroad connections, and spirit of enterprise, have made it largely the political, commercial and educational center of the State.

The buildings are situated on one of the most elevated, quiet and lovely spots within the limits of the city, and afford superior facilities for acquiring a thorough education with economy in expenditures, and preservation of morals, and in point of healthfulness it is unsurpassed.

Rooms are all large, airy, *well heated and ventilated*, and neatly furnished. Grounds are extensive for recreation, and there are delightful walks in every direction. Easy of access by two street car lines.

MEMBERSHIP.

Applicants for admission must be at least fourteen years of age, and must give satisfactory testimonials of good moral character. Pupils should aim to be present the first day of school, that they may be classified, and thus lose no time.

Physical, social, moral and religious culture will occupy an important place in the general system pursued. Religious and moral instruction is the foundation of all our teaching. We believe if *this* be neglected all else is *in vain*. The motto of the school is, *Our whole school for Christ*.

To train the intellect, to store the mind with useful knowledge, to induce habits of industry and a desire for general information, to inspire a love for the true and the beautiful, to prepare the pupils for practical duties of life, are the objects earnestly sought to be accomplished.

CREDIT SYSTEM.

An accurate daily record is kept of the scholarship, deportment and punctuality of each student. The degree of proficiency of every recitation is carefully noted and marked. The standing of any pupil, at any time, can be determined by these records, for the benefit of parents and patrons.

At the close of each month there will be a general review.

Good order, prompt obedience and diligent study must be secured.

TEACHERS' CLASSES.

Special attention is given to the preparation of pupils for teaching. To this end A MODEL SCHOOL has been opened.

MODEL SCHOOL.

This school consists of *four* divisions corresponding to the grades of the best public schools. The design of our Model School is to furnish those preparing to teach, a place where they may learn how to *teach* by *actual teaching*, under the supervision of a practical teacher.

INDUSTRIAL DEPARTMENT.

This is *made a prominent feature in this Institution.*

The time of five teachers is mainly devoted to this department. Every woman should be a good house-keeper, for her own honor and the progress of civilization. Hence, all the boarders are required to learn the art of house-keeping in its various branches. Mending, cutting, making garments, millinery, and the different kinds of needle-work are taught; also designing for fabrics.

Printing and fine laundry work have been introduced during the past year, with marked success; and other occupations will be taught as soon as practicable.

It is expected that a Kitchen Garden will be opened next term, in connection with the Model School.

The results accomplished the past year, through the aid of the "Slater Fund," prove, beyond a doubt, the desirableness and practicability of industrial training, to coincide with other courses of study.

For all, especially for those who are to be teachers and mothers, we believe industrial training is essential in making them *self-reliant* and *self-supporting*; yea, necessary for the best intellectual and moral discipline of the colored people. Our great aim is to make education *practical*.

 Regular courses of instruction are pursued in each branch of this department, and Certificates are awarded accordingly.

Each student receiving a Certificate in this course has attended the school at least two years, is of good moral character, and has served creditably in the various branches taught in the Industrial Department including cooking, washing, ironing, chamber work, and plain sewing.

PRINTING.

The "Slater Fund" through Dr. Haygood, agent, has furnished a Printing-room. The "Spelman Messenger," a paper published regularly, is printed by the students; also cards, labels, etc.

MUSIC.

Instruction is given in vocal music *to all the students.*

An extra charge of two dollars per month is made to those who wish to take lessons on the Organ or Piano. The methods of instruction are new, thorough, and progressive, giving the pupils the benefit of *daily training*, thus including the Normal and Conservatory plans of teaching.

SOCIETIES.

The Literary Society was organized at the commencement of the School *four years ago.* This Society has for its object mutual improvement and the raising of funds to carry on educational purposes.

The Mission Society was organized with a view of advancing the cause of missions at home and abroad. Every week members go out to do missionary work in the city.

The Band of "Christian Temperance Workers" is exerting a *healthful* influence in and out of school.

A Young Woman's Christian Association has been recently organized, which includes the above Societies, together with other branches of work.

READING ROOM.

We have received some very valuable additions to our Library during the past year. A walnut case filled with useful books from Mrs. Hovey, Boston, Mass. Sets of very interesting books from Dr. W. H. Monroe, Boston, Mass.; from estate of Emerson Andrews, through Jas. T. Earle, Boston, Mass.; from friends Williamstown, Mass.; from Mrs. M. K. Jesup, New York. Smaller donations of books have also been received from various sources.

We are in great need of additions to our library and *invite contributions.* Especially Standard books for reference.

Most of the leading religious newspapers have been gratuitously supplied.

BOARD.

Board is at cost. It has not exceeded seven dollars including *tuition* per month. The ruinous prices of provisions on *credit system* make the payment of board monthly *in advance* INDISPENSABLE. Those that fail to pay in advance will be charged fifty *cents* extra each month.

Money in payment of bills should be sent by money order, draft, registered letter, or by express directly to Miss S. B. Packard, Principal. Receipts will be promptly returned.

REGULATIONS.

Pupils must be courteous and polite to their school-mates, and respectful and obedient to their teachers.

Neatness, cleanliness, industry and economy, are with us indispensable virtues.

Each pupil must study at night, but not later than nine o'clock.

Prayer-meeting every evening at six o'clock.

Each student is expected to furnish her own towels and napkins. Each article should be distinctly marked with the owner's name. *Thick shoes, rubbers and waterproo, must also be provided.*

CHAPEL SERVICES.

The International Lesson on each Friday night; Sabbath School every Sunday afternoon, followed by Sermon or Bible Reading.

Students are not expected to make or receive calls on the Sabbath. Neither should they spend a single Sabbath away from the Seminary during term time. The religious influence of the school, which has always been positive and strong, would be greatly hindered were such absences allowed.

TEACHING IN VACATION.

From two to three hundred students teach during the months of June, July, August and September, and thus aid themselves in obtaining an education. Superintendents of schools, and any who desire teachers can address the Principals, who will recommend students, and give certificates of standing and membership.

GRATITUDE.

The school desires to express gratitude to the many friends, including individuals, churches, Sunday-schools and societies that have so generously contributed toward the support of this work.

We feel to devote our lives to Him who has blessed us this year in the conversion of nearly one hundred of our number.

During the year all our rooms have been crowded, and we have been obliged to turn many from our doors who have begged for admittance. If God sends these people to us, will He hold His children, upon whom his work is laid, *guiltless*, if they do not make necessary provision for them?

A new Building is a *necessity*. For this kind friends have already pledged twelve thousand dollars. We earnestly call upon all interested in our work to aid in securing the remaining amount needed.

CALENDAR.

The next school year will commence Thursday, Oct. 1, 1885, and close May 27, 1886. There will be a vacation of ten days during the session.

Anniversary exercises as follows: Examinations, May 20, 21, 24, 25.

Annual sermon before the Young Women's Christian Association, May 23. Class day, May 26. Commencement, May 27, 1886.
